## PROFESSIONAL PROFILE

---

- Senior Business Intelligence executive with 10+ years building enterprise BI strategies, governing data assets, and translating complex analytics into board-level decisions that improve financial margins and member satisfaction.
- Proven track record designing end-to-end BI roadmaps — from ETL architecture and cloud data platform selection to self-service analytics rollout and executive dashboard programs — while championing data governance frameworks and a data-driven culture across 500+ stakeholders.
- Expertise spans process optimization, compliance measurement systems, cross-functional departmental leadership, and scaling BI infrastructure to maximize enterprise results.

## PROFESSIONAL EXPERIENCE

---

### Director of Business Intelligence (Lead, BI), *Humana*, Tampa, FL (2013 to Present)

- Owns the enterprise BI strategy and roadmap for the Learning Solutions division, aligning C-suite stakeholders and VP-level partners on KPIs, OKRs, and data-driven decision frameworks that drive cost efficiency and member-outcome improvements.
- Established and enforces data governance policies and data quality standards across production Power BI environments, reducing reporting errors by 30% and ensuring full regulatory compliance.
- Architected and manages ETL pipelines ingesting real-time Learning Center data into Humana's enterprise data warehouse, enabling self-service analytics for 500+ internal users across 12 departments.
- Leads a cross-functional BI team of 6 analysts and engineers; oversees \$1.2M analytics budget, vendor relationships, and tool selection (Power BI, CSOD, Azure Synapse).

- Delivers executive-level PowerBI dashboards from CSOD Reports to VP and C-suite audiences, translating complex datasets into strategic narratives that inform enterprise workforce decisions.
- Provides regression testing and advanced data analysis on real-time datasets; all validated models are persisted in Humana's cloud data warehouse for reuse across the analytics org.

**Store Manager, *Atomic LLC*, Clearwater, FL (2011 to 2013)**

- Aligned business operations and financial processes by implementing performance-improvement initiatives that grew monthly sales 350% within the first quarter.
- Staffed and developed top-tier talent, building the highest-performing branch in the organization for 3 consecutive quarters in a volatile market.
- Spearheaded process-improvement projects that reduced production expense and expanded the clientele base, resulting in increased profit margins.

**Manager, *HT Inc.*, Clearwater, FL (2007 to 2011)**

- Revamped operational processes, yielding company revenue growth that exceeded target goals for 6 consecutive quarters.
- Designed and led customer-based projects focused on operations, communications, and leadership development for internal education, improving individual performance and driving the branch into the Top 5 out of 600+ national locations with a 0.01% annual shrink result two consecutive years.

**Operations Officer, *U.S. Navy*, NAVSTA, TX (2002 to 2007)**

- Maintained oversight of all operational goals for a multi-level operations department, earning two successive commendation awards for successful deployments.
- Implemented strategic operational and government support functions, resulting in the successful decommissioning of 2 Naval Vessels on time and within budget.
- Selected for Operations Officer position based on exceptional performance history and demonstrated top-tier leadership capabilities.
